

Oxyzone Silver Industrial

S31 and S32 Silver Industrial single and double UV lamp ozone generator.

Oxyzone Silver Industrial UV ozone generators are the commercial work horses for treating a range of problems such as odour reduction/elimination, sanitising food preparation areas/cool storage rooms, and following flood, fire, or trauma. They can also be used as an after-harvest treatment for cool storage rooms where the additional features of the Silver Harvest series are not required.

The S31 and S32 UV ozone generators can be used in commercial and retail sectors to:

- Remove offensive odours from waste collection areas.
- Provide mould and mildew treatment after general cleaning.
- Eradicate the smell of cigarette smoke at the end of a residential lease.
- Sanitise food preparation surfaces after working hours.
- Reduce bacteria levels in food cool storage areas to prolong shelf life.
- Prolong the after-harvest storage life of produce in cool rooms.
- Reduce the odour of drying carpets after cleaning.

S32 Silver Industrial
Double Lamp UV
Ozone Generator

S34E Industrial
Double Lamp HO
UV Ozone Generator

Insurance companies recognise the effectiveness of ozone and often insist on its use in the cleanup following a harrowing event.

S33 single lamp and S34 double lamp Silver Industrial High Output (HO) UV ozone generators.

With their high output UV lamps and high capacity fans they are ideal tools for the professional who specialises in the remediation of odour, mould and mildew treatment and restoration following flood, fire, trauma and forensic events.

Use the S33 and S34 for the following:

- Deodorise smoke damaged furniture and personal effects.
- Deodorise wet furnishing and personal effects when drying out following a flood.
- Sanitising areas following trauma; animal or human.
- Mould and mildew treatment and retardation.
- Odour elimination from larger waste holding areas.

The S34E Industrial has a built-in timer providing additional control for convenient efficient use by the busy cleaning professional.

100% Australian Made & Manufactured

Oxyzone products are designed and manufactured in Australia to comply with electrical and safety standards. Our service personnel and our spare parts are also in Australia.
