

Oxyzone Total Ozone System

This self-contained ozone skid delivers high strength ozonated water direct to the work area.

Quick and Easy Operation

Wheel it in; connect to water and power and its ready for work.

Use it for:

- Clean In Place (CIP) and food equipment sanitising rinse
- Spray wash for meat, fish and poultry preparation
- Sanitising wash down for food preparation areas
- Wine barrel rinsing
- Storage tank and crate rinsing
- In fact any self contained ozone treatment solution

It's innovative,
it's Australian
and it works.

This complete system uses the highest quality components available:

- 316 Stainless steel frame on wheels with 300L contact tank and header built into the base.
- Power control panel that monitors water flow and safely shuts down in the event of a problem.
- Optional Aeroqual sensors for monitoring safe environmental ozone levels.
- T4400 20 gm/hr ozone generator and AirSep Topaz 5LPM PSA oxygen generator.
- Mazzei Kynar injector and DS150 contact and degas unit.
- Off gas water trap with ozone destruct unit.
- Plastomatic 25mm Kynar relief valve.

Check it out at www.oxyzone.com.au and download the functional description and specification.
